VOLUME 57 • SUBJECT INDEX

- 9G4 idiotope**, Correlation of 9G4 idiotope with disease activity in patients with systemic lupus erythematosus, 566
- acetylcholine**, Microvascular involvement in systemic sclerosis: laser Doppler evaluation of reactivity to acetylcholine and sodium nitroprusside by iontophoresis, 52
- Achilles tendon**, Reactive arthritis and ruptured Achilles tendon: *letter*, 61
- activator protein 1**, Antisense oligonucleotides targeting c-fos mRNA inhibit rheumatoid synovial fibroblast proliferation, 122
- adhesion molecules**, A comparative phenotypical analysis of rheumatoid nodules and rheumatoid synovium with special reference to adhesion molecules and activation markers, 480
- advanced glycation end products**, Amyloid, advanced glycation end products, and dialysis related arthropathy: *leader*, 193
- age**, Matrix metalloproteinase activity in equine synovial fluid: influence of age, osteoarthritis, and osteochondrosis, 697
- Systemic lupus erythematosus (SLE) in childhood: analysis of clinical and immunological findings in 34 patients and comparison with SLE characteristics in adults, 456
- alcohol**, Smoking history, alcohol consumption, and systemic lupus erythematosus: a case-control study, 451
- allergy**, IgE and non-IgE mediated allergic disorders in systemic lupus erythematosus, 660
- allopurinol**, Efficacy of allopurinol and benzbromarone for the control of hyperuricaemia. A pathogenic approach to the treatment of primary chronic gout, 545
- alpha 6**, Loss of laminin and of the laminin receptor integrin subunit $\alpha 6$ in situ correlates with cytokine induced down regulation of $\alpha 6$ on fibroblast-like synoviocytes from rheumatoid arthritis, 559
- amyloid**, Amyloid, advanced glycation end products, and dialysis related arthropathy: *leader*, 193
- amyloidosis**, Azoospermia in familial Mediterranean fever patients: the role of colchicine and amyloidosis: *letter*, 259
- Decreased serum apolipoprotein AII/AI ratio in systemic amyloidosis, 249
- ankylosing spondylitis**, Ankylosing spondylitis: evidence for a non-HLA-B27 protective effect: *letter*, 263
- Antibodies to *Klebsiella pneumoniae* nitrogenase reductase in patients with ankylosing spondylitis: *letter*, 441
- Authors' reply: *letter*, 263
- Do the radiological changes of classic ankylosing spondylitis differ from the changes found in the spondylitis associated with inflammatory bowel disease, psoriasis, and reactive arthritis?, 135
- Ossification of the posterior longitudinal ligament in three geographically and genetically different populations of ankylosing spondylitis and other spondyloarthropathies, 429
- Relation between ectopic ossification after total hip arthroplasty and activity of general inflammation in patients with ankylosing spondylitis: *letter*, 634
- antibody**, Antigen specificity of antihistone antibodies in systemic sclerosis, 470
- antimalarial drugs**, Long term effectiveness of antimalarial drugs in rheumatic diseases, 582
- antineutrophil cytoplasmic antibodies**, Clinical spectrum associated with positive ANCA titres in 94 consecutive patients: is there a relation with PR-3 negative c-ANCA and hypergammaglobulinaemia?, 141
- anti-nuclear antibodies**, Evidence of autoantibodies to cell membrane associated DNA (cultured lymphocytes): a new specific marker for rapid identification of systemic lupus erythematosus, 606
- antiphospholipid syndrome**, Deforming arthropathy or lupus and rhus hands in systemic lupus erythematosus, 540
- antisense oligonucleotides**, Antisense oligonucleotides targeting c-fos mRNA inhibit rheumatoid synovial fibroblast proliferation, 122
- antithrombin III**, Inactivation of antithrombin III in synovial fluid from patients with rheumatoid arthritis, 162
- aortic trunk**, Rupture of a non-aneurysmatic aortic trunk in a patient with giant cell arteritis: *letter*, 442
- apolipoprotein**, Decreased serum apolipoprotein AII/AI ratio in systemic amyloidosis, 249
- apoptosis**, Ceramide, a mediator of interleukin 1, tumour necrosis factor α , as well as Fas receptor signalling, induces apoptosis of rheumatoid arthritis synovial cells, 495
- arthralgia**, A man with intermittent fever and arthralgia, 711
- articular cartilage**, Effects of methotrexate on normal articular cartilage in vitro and in vivo, 414
- aseptic loosening**, Bisphosphonates in bone cement inhibit PMMA particle induced bone resorption, 614
- Expression of tenascin-C in aseptic loosening of total hip replacement, 619
- Asians**, Late onset systemic lupus erythematosus in southern Chinese, 437
- atopy**, Will the increasing prevalence of atopy have a favourable impact on rheumatoid arthritis?: *leader*, 265
- autoantibodies**, The p68 autoantigen characteristic of rheumatoid arthritis is reactive with carbohydrate epitope specific autoantibodies, 220
- autoantibody**, Immunoglobulin allotype gene polymorphisms in systemic sclerosis: interactive effect of MHC class II and KM genes on anticomplement antibody production, 366
- autoantigen**, The p68 autoantigen characteristic of rheumatoid arthritis is reactive with carbohydrate epitope specific autoantibodies, 220
- autoimmune diseases**, Gene therapy in autoimmune diseases: *leader*, 125
- azoospermia**, Azoospermia in familial Mediterranean fever patients: the role of colchicine and amyloidosis: *letter*, 259
- backache**, On the course of low back pain in general practice: a one year follow up study, 13
- Behçet's disease**, Serum IgD as a discriminator between the two periodic febrile syndromes hyper-immunoglobulinaemia D syndrome and Behçet's disease: *letter*, 255
- Behçet's syndrome**, Genetic anticipation in Behçet's syndrome, 45
- Increased erythrocyte aggregation as an indicator for an aggressive clinical course in Behçet's disease: a prospective study, 694
- benzbromarone**, Efficacy of allopurinol and benzbromarone for the control of hyperuricaemia. A pathogenic approach to the treatment of primary chronic gout, 545
- bibliometrics**, An overview of rheumatological research in the European Union, 643
- birefringence**, Articular cartilage superficial zone collagen birefringence reduced and cartilage thickness increased before surface fibrillation in experimental osteoarthritis, 237
- bisphosphonate**, Bisphosphonates in bone cement inhibit PMMA particle induced bone resorption, 614
- bone**, Radiological changes of short and flat bones in primary hypertrophic osteoarthropathy: *letter*, 747
- bone density**, Assessment of bone in Ehlers Danlos syndrome by ultrasound and densitometry, 630
- Cyclical etidronate increases bone density in the spine and hip of postmenopausal women receiving long term corticosteroid treatment. A double blind, randomised placebo controlled study, 724
- Effects of cyclical etidronate combined with calcitriol versus cyclical etidronate alone on spine and femoral neck bone mineral density in postmenopausal osteoporotic women, 346
- bone resorption**, Bisphosphonates in bone cement inhibit PMMA particle induced bone resorption, 614
- bone sialoprotein**, Serum concentrations of cartilage oligomeric matrix protein and bone sialoprotein in hip osteoarthritis: A one year prospective study, 527
- bursitis**, Multiple extra-articular synovial cyst formation: case report and review of the literature, 169
- C4 allele**, A study of the association of HLA DR, DQ, and complement C4 alleles with systemic lupus erythematosus in Iceland, 503
- calcinosis**, Clinical significance of subcutaneous calcinosis in patients with systemic sclerosis. Does diltiazem induce its regression?, 252
- calcitriol**, Effects of cyclical etidronate combined with calcitriol versus cyclical etidronate alone on spine and femoral neck bone mineral density in postmenopausal osteoporotic women, 346
- calcium**, Cyclical etidronate increases bone density in the spine and hip of postmenopausal women receiving long term corticosteroid treatment. A double blind, randomised placebo controlled study, 724
- carbohydrate epitope**, The p68 autoantigen characteristic of rheumatoid arthritis is reactive with carbohydrate epitope specific autoantibodies, 220
- carpus**, Magnetic resonance imaging of the wrist in early rheumatoid arthritis reveals a high prevalence of erosions at four months after symptom onset, 350
- cartilage**, Articular cartilage superficial zone collagen birefringence reduced and cartilage thickness increased before surface fibrillation in experimental osteoarthritis, 237
- Expression of α and β subunits of the integrin superfamily in articular cartilage from macroscopically normal and osteoarthritic human femoral heads, 303
- cartilage oligomeric matrix protein**, Serum concentrations of cartilage oligomeric matrix protein and bone sialoprotein in hip osteoarthritis: A one year prospective study, 527
- central nervous system**, Diplopia as the first manifestation of relapsing polychondritis: *letter*, 634
- ceramide**, Ceramide, a mediator of interleukin 1, tumour necrosis factor α , as well as Fas receptor signalling, induces apoptosis of rheumatoid arthritis synovial cells, 495

- c-fos**, Antisense oligonucleotides targeting c-fos mRNA inhibit rheumatoid synovial fibroblast proliferation, 122
- childhood**, Systemic lupus erythematosus (SLE) in childhood: analysis of clinical and immunological findings in 34 patients and comparison with SLE characteristics in adults, 456
- chondrocalcinosis**, Chondrocalcinosis and Gitelman's syndrome. A new association?: *letter*, 748
- chondrocyte**, Local removal of phagocytic synovial lining cells by clodronate-liposomes decreases cartilage destruction during collagen type II arthritis, 408
- chondrocytes**, Hydrostatic pressure induces expression of interleukin 6 and tumour necrosis factor α mRNAs in a chondrocyte-like cell line, 231
- Churg-Strauss syndrome**, Cyclosporin in the treatment of Churg-Strauss syndrome: *letter*, 258
- Churg-Strauss vasculitis**, A case of Churg-Strauss vasculitis after hepatitis B vaccination: *letter*, 256
- clinical guidelines**, Clinical guidelines: *letter*, 444
- clinical practice guidelines**, The art versus the science of medicine. Are clinical practice guidelines the answer?: *leader*, 67
- clinical skills**, Improving musculoskeletal clinical skills teaching. A regionwide audit and intervention study, 656
- clonal expansion**, TCR β spectratyping in RA: evidence of clonal expansions in peripheral blood lymphocytes, 319
- colchicine**, Azoospermia in familial Mediterranean fever patients: the role of colchicine and amyloidosis: *letter*, 259
- colony stimulating factor-1**, Colony stimulating factor-1 in synovial fluids from osteoarthritic and injured knees: *letter*, 260
- combination treatment**, HLA-DRB1 typing in rheumatoid arthritis: predicting response to specific treatments, 209
- compliance**, Effects of patient education on compliance with basic treatment regimens and health in recent onset active rheumatoid arthritis, 146
- Conference report**, Fourth International Symposium on the Immunotherapy of the Rheumatic Diseases, 177
- confocal microscopy**, Increased expression of human type IIa secretory phospholipase A₂ antigen in arthritic synovium, 550
- corticosteroid induced osteoporosis**, Cyclical etidronate increases bone density in the spine and hip of postmenopausal women receiving long term corticosteroid treatment. A double blind, randomised placebo controlled study, 724
- corticosteroid injection**, Ultrasound guided injection of recalcitrant plantar fasciitis, 383
- corticosteroid resistance**, Relation between HLA DRB1 alleles and corticosteroid resistance in giant cell arteritis, 380
- corticosteroids**, Corticosteroid irrigation of parotid gland for treatment of xerostomia in patients with Sjögren's syndrome, 464
- Disturbance of the menstrual pattern after local injection with triamcinolone acetonide: *letter*, 700
- Treatment of staphylococcal septic arthritis in rabbits by systemic antibiotics and intra-articular corticosteroids, 687
- cryoglobulinaemia**, Cryoglobulinaemia and rheumatic manifestations in patients with hepatitis C virus infection, 728
- Mixed cryoglobulinaemia after hepatitis C virus: more and less ambiguity: *leader*, 701
- cryoglobulins**, Cryoglobulins are not essential: *leader*, 3
- crystals**, Basic calcium phosphate crystals induce synthesis and secretion of 92 kDa gelatinase (gelatinase B/matrix metalloprotease 9) in human fibroblasts, 56
- Quality control of synovial fluid crystal identification, 107
- cyclooxygenase**, Down regulation by iron of prostaglandin E₂ production by human synovial fibroblasts, 742
- cyclophosphamide**, Mortality and causes of death in a Swedish series of systemic sclerosis patients, 682
- cyclosporin**, Cyclosporin in the treatment of Churg-Strauss syndrome: *letter*, 258
- cytokine**, Down regulation by iron of prostaglandin E₂ production by human synovial fibroblasts, 742
- Involvement of simultaneous multiple transcription factor expression, including cAMP responsive element binding protein and OCT-1, for synovial cell outgrowth in patients with rheumatoid arthritis, 487
- cytokine genes**, Linkage of cytokine genes to rheumatoid arthritis. Evidence of genetic heterogeneity, 361
- cytokines**, Serum interleukin 12 concentration in juvenile chronic arthritis, 425
- T cell derived cytokines in psoriatic arthritis synovial fluids, 691
- cytoplasmic membrane associated DNA**, Evidence of autoantibodies to cell membrane associated DNA (cultured lymphocytes): a new specific marker for rapid identification of systemic lupus erythematosus, 606
- dactylitis**, Dactylitis also involving the synovial sheaths in the palm of the hand: two more cases studied by magnetic resonance imaging: *letter*, 61
- definition of improvement**, Performance of the preliminary definition of improvement in juvenile chronic arthritis patients treated with methotrexate, 38
- deforming arthropathy**, A young boy with deforming arthropathy: *lesson of the month*, 79
- Deforming arthropathy or lupus and rhyphus hands in systemic lupus erythematosus, 540
- dehydroepiandrosterone sulphate**, Serum androgen-anabolic hormones and the risk of rheumatoid arthritis, 281
- dermatomyositis**, Dermatomyositis—how far to go!: *lesson of the month*, 198
- Ophthalmic manifestations of dermatomyositis: *lesson of the month*, 447
- diabetes insipidus**, Neurogenic diabetes insipidus in patients with systemic lupus erythematosus: *letter*, 261
- diagnosis**, The diagnostic value of perivascular infiltrates in muscle biopsy specimens for the assessment of rheumatoid vasculitis, 114
- diagnostic imaging**, Soft tissue mass around the shoulder, 6
- dialysis related arthropathy**, Amyloid, advanced glycation end products, and dialysis related arthropathy: *leader*, 193
- diet**, Dietary advice in systemic sclerosis: the dangers of a high fibre diet: *lesson of the month*, 641
- digital vascular disease**, Quantifying digital vascular disease in patients with primary Raynaud's phenomenon and systemic sclerosis: *review*, 70
- diltiazem**, Clinical significance of subcutaneous calcinosis in patients with systemic sclerosis. Does diltiazem induce its regression?, 252
- disability**, Quadriceps weakness in knee osteoarthritis: the effect on pain and disability, 588
- disease associations**, A study of the association of HLA DR, DQ, and complement C4 alleles with systemic lupus erythematosus in Iceland, 503
- distal interphalangeal joint osteophytes**, Relation between Heberden's nodes and distal interphalangeal joint osteophytes and their role as markers of generalised disease, 246
- D-Penicillamine**, Postural changes, dysphagia, and systemic sclerosis, 331
- DRB1**, HLA-DRB1 typing in rheumatoid arthritis: predicting response to specific treatments, 209
- echocardiography**, Heart involvement in systemic sclerosis: an ultrasonic tissue characterisation study, 296
- ectopic ossification**, Relation between ectopic ossification after total hip arthroplasty and activity of general inflammation in patients with ankylosing spondylitis: *letter*, 634
- efficacy**, Long term effectiveness of antimalarial drugs in rheumatic diseases, 582
- Ehlers Danlos syndrome**, Assessment of bone in Ehlers Danlos syndrome by ultrasound and densitometry, 630
- endothelial cells**, Rheumatoid synovial endothelial cells secrete decreased levels of tissue inhibitor of MMP (TIMP1), 158
- endothelium**, Microvascular involvement in systemic sclerosis: laser Doppler evaluation of reactivity to acetylcholine and sodium nitroprusside by iontophoresis, 52
- enzyme linked immunosorbent assay**, Antigen specificity of antihistone antibodies in systemic sclerosis, 470
- epidemiology**, Low frequency of recent parvovirus infection in a population-based cohort of patients with early inflammatory polyarthritis, 375
- Prevalence of rheumatoid arthritis in Italy: the Chiavari study, 315
- Serum androgen-anabolic hormones and the risk of rheumatoid arthritis, 281
- erythrocyte aggregation**, Increased erythrocyte aggregation as an indicator for an aggressive clinical course in Behçet's disease: a prospective study, 694
- etidronate**, Cyclical etidronate increases bone density in the spine and hip of postmenopausal women receiving long term corticosteroid treatment. A double blind, randomised placebo controlled study, 724
- Effects of cyclical etidronate combined with calcitriol versus cyclical etidronate alone on spine and femoral neck bone mineral density in postmenopausal osteoporotic women, 346
- Europe**, An overview of rheumatological research in the European Union, 643
- evidence-based medicine**, Admissible evidence: *leader*, 387
- Evidence-based medicine or medicines-based evidence?: *leader*, 385
- experimental arthritis**, Local removal of phagocytic synovial lining cells by clodronate-liposomes decreases cartilage destruction during collagen type II arthritis, 408
- factor VIII**, Fatal vascular occlusion in juvenile dermatomyositis: *letter*, 172
- falls**, The occurrence of falls among patients with a new episode of hip pain, 166
- familial**, Genetic anticipation in Behçet's syndrome, 45
- familial Mediterranean fever**, Azoospermia in familial Mediterranean fever patients: the role of colchicine and amyloidosis: *letter*, 259
- fatigue**, Fatigue in primary Sjögren's syndrome, 291
- fever**, A man with intermittent fever and arthralgia, 711
- fibre**, Dietary advice in systemic sclerosis: the dangers of a high fibre diet: *lesson of the month*, 641
- fibroblasts**, Basic calcium phosphate crystals induce synthesis and secretion of 92 kDa gelatinase (gelatinase B/matrix metalloprotease 9) in human fibroblasts, 56
- filtration fraction**, Renal haemodynamic characteristics in patients with lupus nephritis, 226

- follow up study**, On the course of low back pain in general practice: a one year follow up study, 13
- fracture**, Assessment of bone in Ehlers Danlos syndrome by ultrasound and densitometry, 630
- Prescribing by general practitioners after an osteoporotic fracture, 378
- function**, Improved functional outcome in patients with early rheumatoid arthritis treated with intramuscular gold: results of a five year prospective study, 88
- functional disability**, The responsiveness of the Shoulder Disability Questionnaire, 82
- gelatinase**, Basic calcium phosphate crystals induce synthesis and secretion of 92 kDa gelatinase (gelatinase B/matrix metalloproteinase 9) in human fibroblasts, 56
- gene therapy**, Gene therapy in autoimmune diseases: *leader*, 125
- general practice**, On the course of low back pain in general practice: a one year follow up study, 13
- The occurrence of falls among patients with a new episode of hip pain, 166
- generalised osteoarthritis**, Prevalence of generalised osteoarthritis in patients with advanced hip and knee osteoarthritis: The Ulm Osteoarthritis Study, 717
- genetic**, Allelic variation in the vitamin D receptor, lifestyle factors and lumbar spinal degenerative disease, 94
- genetic anticipation**, Evidence for genetic anticipation in nodal osteoarthritis, 524
- Genetic anticipation in Behçet's syndrome, 45
- genetics**, A genetic association study of the IGF-1 gene and radiological osteoarthritis in a population-based cohort study (the Rotterdam study), 371
- Influence of non-inherited maternal HLA-DR antigens on susceptibility to rheumatoid arthritis, 672
- giant cell arteritis**, Relation between HLA DRB1 alleles and corticosteroid resistance in giant cell arteritis, 380
- Rupture of a non-aneurysmal aortic trunk in a patient with giant cell arteritis: *letter*, 442
- Gitelman's syndrome**, Chondrocalcinosis and Gitelman's syndrome. A new association?: *letter*, 748
- gold**, Gold and ring finger: *letter*, 323
- Improved functional outcome in patients with early rheumatoid arthritis treated with intramuscular gold: results of a five year prospective study, 88
- Protective effect of gold rings and rheumatoid arthritis: *letter*, 323
- gout**, Efficacy of allopurinol and benzbromarone for the control of hyperuricaemia. A pathogenic approach to the treatment of primary chronic gout, 545
- Hyperlipidaemia in hyperuricaemia and gout: *leader*, 509
- Orderly arrayed deposit of urate crystals in gout suggest epitaxial formation: *letter*, 255
- Serum uric acid in acute gout: *letter*, 443
- gout suppressants**, Efficacy of allopurinol and benzbromarone for the control of hyperuricaemia. A pathogenic approach to the treatment of primary chronic gout, 545
- gut**, Gut feeling: *letter*, 635
- haemodialysis**, Decreased serum apolipoprotein AII/AI ratio in systemic amyloidosis, 249
- hand osteoarthritis**, Prevalence of generalised osteoarthritis in patients with advanced hip and knee osteoarthritis: The Ulm Osteoarthritis Study, 717
- HAQ**, Improved functional outcome in patients with early rheumatoid arthritis treated with intramuscular gold: results of a five year prospective study, 88
- hay fever**, Mutual antagonism of rheumatoid arthritis and hay fever; a role for type 1/type 2 T cell balance, 275
- health status**, Effects of patient education on compliance with basic treatment regimens and health in recent onset active rheumatoid arthritis, 146
- heart block**, Complete heart block caused by primary Sjögren's syndrome and hypopituitarism: *letter*, 635
- heart involvement**, Heart involvement in systemic sclerosis: an ultrasonic tissue characterisation study, 296
- Heberden's nodes**, Relation between Heberden's nodes and distal interphalangeal joint osteophytes and their role as markers of generalised disease, 246
- hepatitis B vaccination**, A case of Churg-Strauss vasculitis after hepatitis B vaccination: *letter*, 256
- hepatitis B virus**, Hepatitis G virus infection in primary Sjögren's syndrome: analysis in a series of 100 patients, 42
- Polyarteritis nodosa associated with precore mutant hepatitis B virus infection: *letter*, 173
- hepatitis C**, Mixed cryoglobulinaemia after hepatitis C virus: more and less ambiguity: *leader*, 701
- hepatitis C virus**, Cryoglobulinaemia and rheumatic manifestations in patients with hepatitis C virus infection, 728
- Hepatitis G virus infection in primary Sjögren's syndrome: analysis in a series of 100 patients, 42
- Parvovirus B19 infection, hepatitis C virus infection, and mixed cryoglobulinaemia, 422
- hepatitis G virus**, Hepatitis G virus infection in primary Sjögren's syndrome: analysis in a series of 100 patients, 42
- hip**, Associations of radiological osteoarthritis of the hip and knee with locomotor disability in the Rotterdam Study, 203
- Osteoarthritis of the hip: agreement between joint space width measurements on standing and supine conventional radiographs, 519
- Serum concentrations of cartilage oligomeric matrix protein and bone sialoprotein in hip osteoarthritis: A one year prospective study, 527
- The faux profil (oblique view) of the hip in the standing position. Contribution to the evaluation of osteoarthritis of the adult hip, 676
- hip osteoarthritis**, Prevalence of generalised osteoarthritis in patients with advanced hip and knee osteoarthritis: The Ulm Osteoarthritis Study, 717
- The occurrence of falls among patients with a new episode of hip pain, 166
- hip pain**, Unexplained hip pain: look beyond the obvious abnormality: *lesson of the month*, 131
- histology**, The diagnostic value of perivascular infiltrates in muscle biopsy specimens for the assessment of rheumatoid vasculitis, 114
- histone**, Antigen specificity of antihistone antibodies in systemic sclerosis, 470
- HIV**, Parotid lipomatosis in HIV positive patients: a new clinical disorder associated with protease inhibitors: *letter*, 749
- HLA**, A study of the association of HLA DR, DQ, and complement C4 alleles with systemic lupus erythematosus in Iceland, 503
- Influence of HLA-class II incompatibility between mother and fetus on the development and course of rheumatoid arthritis of the mother, 286
- Influence of non-inherited maternal HLA-DR antigens on susceptibility to rheumatoid arthritis, 672
- HLA class II alleles**, Differential contribution of HLA-DR, DQ, and TAP2 alleles to systemic lupus erythematosus susceptibility in Spanish patients: role of TAP201 alleles in Ro autoantibody production, 214
- HLA DRB1 alleles**, Lack of association between HLA DRB1 alleles and RS3PE syndrome: *letter*, 442
- HLA DRB104**, Relation between HLA DRB1 alleles and corticosteroid resistance in giant cell arteritis, 380
- HLA-B27**, Ankylosing spondylitis: evidence for a non-HLA-B27 protective effect: *letter*, 263
- Authors' reply: *letter*, 263
- hormones**, Relations between steroid hormones and cytokines in rheumatoid arthritis and systemic lupus erythematosus: *leader*, 573
- horse**, Matrix metalloproteinase activity in equine synovial fluid: influence of age, osteoarthritis, and osteochondrosis, 697
- human**, Altered leucocyte trafficking and suppressed tumour necrosis factor α release from peripheral blood monocytes after intra-articular glucocorticoid treatment, 732
- human parvovirus B19**, Low frequency of recent parvovirus infection in a population-based cohort of patients with early inflammatory polyarthritis, 375
- hyaluronan**, A method for estimating macromolecular reflection by human synovium, using measurements of intra-articular half lives: *now and then*, 339
- Hyaluronan production in human rheumatoid fibroblastic synovial lining cells is increased by interleukin 1 β but inhibited by transforming growth factor β 1, 602
- Intra-articular hyaluronan treatment for osteoarthritis: *leader*, 637
- hyaluronic acid**, Salivary and serum hyaluronic acid concentrations in patients with Sjögren's syndrome, 506
- hydroxychloroquine**, Lipid profiles in patients with rheumatoid arthritis: *matters arising*, 175
- hypergammaglobulinaemia**, Clinical spectrum associated with positive ANCA titres in 94 consecutive patients: is there a relation with PR-3 negative c-ANCA and hypergammaglobulinaemia?, 141
- hyperimmunoglobulinaemia D**, Serum IgD as a discriminator between the two periodic febrile syndromes hyper-immunoglobulinaemia D syndrome and Behçet's disease: *letter*, 255
- hyperimmunoglobulinaemia D syndrome**, Serum IgD as a discriminator between the two periodic febrile syndromes hyper-immunoglobulinaemia D syndrome and Behçet's disease: *letter*, 255
- hyperlipidaemia**, Hyperlipidaemia in hyperuricaemia and gout: *leader*, 509
- hyperuricaemia**, Hyperlipidaemia in hyperuricaemia and gout: *leader*, 509
- hypophysary insufficiency**, Neurogenic diabetes insipidus in patients with systemic lupus erythematosus: *letter*, 261
- hypopituitarism**, Complete heart block caused by primary Sjögren's syndrome and hypopituitarism: *letter*, 635
- Hypopituitarism in a woman with a severe primary antiphospholipid syndrome: *letter*, 257
- hypoxia**, Influence of hypoxia in inflammatory synovitis, 703
- IGF-1**, A genetic association study of the IGF-1 gene and radiological osteoarthritis in a population-based cohort study (the Rotterdam study), 371
- immunofluorescence**, Evidence of autoantibodies to cell membrane associated DNA (cultured lymphocytes): a new specific marker for rapid identification of systemic lupus erythematosus, 606

- immunogenetics**, Analysis of T cell receptor V alpha polymorphisms in rheumatoid arthritis, 49
- immunoglobulin allotype**, Immunoglobulin allotype gene polymorphisms in systemic sclerosis: interactive effect of MHC class II and KM genes on antientromere antibody production, 366
- immunohistochemistry**, Expression of α and β subunits of the integrin superfamily in articular cartilage from macroscopically normal and osteoarthritic human femoral heads, 303
Increased expression of human type IIa secretory phospholipase A₂ antigen in arthritic synovium, 550
- incompatibility**, Influence of HLA-class II incompatibility between mother and fetus on the development and course of rheumatoid arthritis of the mother, 286
- infectious arthritis**, Treatment of staphylococcal septic arthritis in rabbits by systemic antibiotics and intra-articular corticosteroids, 687
- inflammation**, Iron, lactoferrin and iron regulatory protein activity in the synovium; relative importance of iron loading and the inflammatory response, 309
Local removal of phagocytic synovial lining cells by clodronate-liposomes decreases cartilage destruction during collagen type II arthritis, 408
Synovial mast cell responses during clinical improvement in early rheumatoid arthritis, 664
- inflammatory arthritis**, The Th1-Th2 model—what relevance to inflammatory arthritis? *leader*, 328
- inflammatory bowel disease**, Do the radiological changes of classic ankylosing spondylitis differ from the changes found in the spondylitis associated with inflammatory bowel disease, psoriasis, and reactive arthritis?, 135
- inflammatory mediators**, Down regulation by iron of prostaglandin E₂ production by human synovial fibroblasts, 742
- inflammatory synovitis**, Influence of hypoxia in inflammatory synovitis, 703
- integrins**, Expression of α and β subunits of the integrin superfamily in articular cartilage from macroscopically normal and osteoarthritic human femoral heads, 303
Loss of laminin and of the laminin receptor integrin subunit $\alpha 6$ in situ correlates with cytokine induced down regulation of $\alpha 6$ on fibroblast-like synoviocytes from rheumatoid arthritis, 559
- interferon γ** , Mutual antagonism of rheumatoid arthritis and hay fever; a role for type 1/type 2 T cell balance, 275
- interleukin 1 β** , Hyaluronan production in human rheumatoid fibroblastic synovial lining cells is increased by interleukin 1 β but inhibited by transforming growth factor $\beta 1$, 602
- interleukin 4**, Mutual antagonism of rheumatoid arthritis and hay fever; a role for type 1/type 2 T cell balance, 275
- interleukin 6**, Hydrostatic pressure induces expression of interleukin 6 and tumour necrosis factor α mRNAs in a chondrocyte-like cell line, 231

- Systemic lupus erythematosus (SLE) in childhood: analysis of clinical and immunological findings in 34 patients and comparison with SLE characteristics in adults, 456
- systemic onset juvenile chronic arthritis**, Lymphadenopathy in a patient with systemic onset juvenile chronic arthritis, 513
- systemic sclerosis**, Antigen specificity of antihistone antibodies in systemic sclerosis, 470
- Clinical significance of subcutaneous calcinosis in patients with systemic sclerosis. Does diltiazem induce its regression?, 252
- Heart involvement in systemic sclerosis: an ultrasonic tissue characterisation study, 296
- Microvascular involvement in systemic sclerosis: laser Doppler evaluation of reactivity to acetylcholine and sodium nitroprusside by iontophoresis, 52
- Postural changes, dysphagia, and systemic sclerosis, 331
- Quantifying digital vascular disease in patients with primary Raynaud's phenomenon and systemic sclerosis: *review*, 70
- T cell**, Analysis of T cell subsets present in the peripheral blood and synovial fluid of reactive arthritis patients, 100
- TCR β spectratyping in RA: evidence of clonal expansions in peripheral blood lymphocytes, 319
- T cell receptor**, Analysis of T cell receptor V alpha polymorphisms in rheumatoid arthritis, 49
- T cells**, A comparative phenotypical analysis of rheumatoid nodules and rheumatoid synovium with special reference to adhesion molecules and activation markers, 480
- T cell derived cytokines in psoriatic arthritis synovial fluids, 691
- T helper cells**, Serum interleukin 12 concentration in juvenile chronic arthritis, 425
- T1 T cell**, Mutual antagonism of rheumatoid arthritis and hay fever; a role for type 1/type 2 T cell balance, 275
- T2 T cell**, Mutual antagonism of rheumatoid arthritis and hay fever; a role for type 1/type 2 T cell balance, 275

- TAP2 alleles**, Differential contribution of HLA-DR, DQ, and TAP2 alleles to systemic lupus erythematosus susceptibility in Spanish patients: role of TAP201 alleles in Ro autoantibody production, 214
- telephone-based interventions**, Telephone-based interventions in outpatient care: *leader*, 196
- tenascin**, Expression of tenascin-C in aseptic loosening of total hip replacement, 619
- testosterone**, Serum androgen-anabolic hormones and the risk of rheumatoid arthritis, 281
- Th1-Th2 model**, The Th1-Th2 model—what relevance to inflammatory arthritis?: *leader*, 328
- thrombin**, Inactivation of antithrombin III in synovial fluid from patients with rheumatoid arthritis, 162
- thrombocytopenia**, Fatal vascular occlusion in juvenile dermatomyositis: *letter*, 172
- tissue inhibitor of matrix metalloproteinases**, Rheumatoid synovial endothelial cells secrete decreased levels of tissue inhibitor of MMP (TIMP1), 158
- tissue outgrowth**, Involvement of simultaneous multiple transcription factor expression, including cAMP responsive element binding protein and OCT-1, for synovial cell outgrowth in patients with rheumatoid arthritis, 487
- total hip arthroplasty**, Relation between ectopic ossification after total hip arthroplasty and activity of general inflammation in patients with ankylosing spondylitis: *letter*, 634
- total hip replacement**, Expression of tenascin-C in aseptic loosening of total hip replacement, 619
- toxicity**, Long term effectiveness of antimalarial drugs in rheumatic diseases, 582
- transcription factor**, Involvement of simultaneous multiple transcription factor expression, including cAMP responsive element binding protein and OCT-1, for synovial cell outgrowth in patients with rheumatoid arthritis, 487
- transforming growth factor β 1**, Hyaluronan production in human rheumatoid fibroblastic synovial lining cells is increased by interleukin 1β but inhibited by transforming growth factor β 1, 602
- transporter associated with antigen processing**, Analysis of LMP and TAP polymorphisms by polymerase chain reaction-restriction fragment length polymorphism in rheumatoid arthritis, 33
- treatment**, Early treatment of rheumatoid arthritis: rationale, evidence, and implications: *leader*, 511
- trinucleotide repeats**, Evidence for genetic anticipation in nodal osteoarthritis, 524
- tumour necrosis factor α** , Altered leucocyte trafficking and suppressed tumour necrosis factor α release from peripheral blood monocytes after intra-articular glucocorticoid treatment, 732
- Hydrostatic pressure induces expression of interleukin 6 and tumour necrosis factor α mRNAs in a chondrocyte-like cell line, 231
- ulnar artery**, Distribution of macrovascular disease in scleroderma, 476
- ultrasonic**, Heart involvement in systemic sclerosis: an ultrasonic tissue characterisation study, 296
- ultrasonography**, Ultrasonography in rheumatology: an evolving technique: *leader*, 268
- ultrasound**, Ultrasound guided injection of plantar fasciitis: *letter*, 749
- ultrasound diagnostics**, Ultrasound and operative evaluation of arthritic shoulder joints, 357
- ultrasound guided**, Ultrasound guided injection of recalcitrant plantar fasciitis, 383
- undergraduate teaching**, Improving musculoskeletal clinical skills teaching. A regionwide audit and intervention study, 656
- Unusual and memorable**, Unusual and memorable, 78, 389, 502
- upper limb disorders**, Work related upper limb disorders: getting down to specifics: *leader*, 445
- urate crystals**, Orderly arrayed deposit of urate crystals in gout suggest epitaxial formation: *letter*, 255
- uric acid**, Serum uric acid in acute gout: *letter*, 443
- vascular disease**, Hyperlipidaemia in hyperuricaemia and gout: *leader*, 509
- vascularity**, Quantitative assessment of the rheumatoid synovial microvascular bed by gadolinium-DTPA enhanced magnetic resonance imaging, 152
- vasculitis**, Clinical spectrum associated with positive ANCA titres in 94 consecutive patients: is there a relation with PR-3 negative c-ANCA and hypergammaglobulinaemia?, 141
- The diagnostic value of perivascular infiltrates in muscle biopsy specimens for the assessment of rheumatoid vasculitis, 114
- vasculopathy**, Fatal vascular occlusion in juvenile dermatomyositis: *letter*, 172
- videodensitometry**, Heart involvement in systemic sclerosis: an ultrasonic tissue characterisation study, 296
- Wegener's granulomatosis**, Clinical spectrum associated with positive ANCA titres in 94 consecutive patients: is there a relation with PR-3 negative c-ANCA and hypergammaglobulinaemia?, 141
- Whipple's disease**, A man with intermittent fever and arthralgia, 711
- work**, Work related upper limb disorders: getting down to specifics: *leader*, 445
- workplace**, Psychosocial risks for low back pain: are these related to work?, 500
- xerostomia**, Corticosteroid irrigation of parotid gland for treatment of xerostomia in patients with Sjögren's syndrome, 464
- Weak association between subjective symptoms of and objective testing for dry eyes and dry mouth: results from a population based study, 20
